2010-2011 Interdisciplinary Studies Areas of Study Prefix Sheet

This sheet is designed to serve you as a general guide. Keep in mind that not all courses will count within the given area, and not all prefixes are listed; even if the prefix is listed, you must consult with an Interdisciplinary Studies advisor to confirm that the specific course does count. Interdisciplinary Studies is a university-wide program that generates access to many courses, assuming all prerequisites are completed. However, departments may put a priority on registering their own majors and limit registration for non-majors.

PLEASE CHECK ALL COURSE PREREQUISITES

Arts (BA)
Many Art area courses require prerequisites or permission to enroll. Some require auditions or portfolio reviews. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students who wish to complete this area should consult with an Interdisciplinary Studies advisor before embarking on it. We recommend completing a minor in the Art area.

ARC Architecture
ARH Art History
ART Art
DAA Dance Activities
DAN Dance
DIG Digital Media
FIL Film
GRA Graphic Art
MUC Music: Composition
MUG Music: Conducting
MUH Music History and Literature
MUL Music Literature
MUN Music: Music Ensembles
MNU Music: Opera/Musical Theatre

MVO Music: Applied-Other Instruments
MVP Music: Applied-Percussion
MVS Music: Applied-Strings
MVV Music: Applied-Voice
MW Music: Applied-Woodwinds
PGY Photography
THE Theatre
TPA Theatre Production & Administration
TPP Theatre Performance & Training

Behavioral & Social Sciences (BA)
Many Communication area courses require prerequisites or are limited to Communication majors and minors. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students intending to declare the Communications area should consult with an advisor. COMM 1000, SPC 1608, and SPC 1603 CANNOT be used in the area.

Note:
• Students must meet prerequisites or corequisites for the courses.
• Students should proceed to the Communication advising office, NSC 143, for any registration problems/issues for communication classes only.

MDM Mathematics: Discrete
MAP Mathematics: Applied
MST Mathematics: Algebraic Structures
MGB Mathematics: General & Finite
MFW Mathematics: Hist and Foundation
STG Mathematics: Topology & Geometry
STA Statistics

Education (BS)
A few courses are generally open to Interdisciplinary Studies students. Upper level Education courses are typically not open to students other than those in Education or those who have passed the General Knowledge Test (GKT) and have a 2.5 GPA or above. We suggest doing an Education minor in order to take upper level Education courses. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students intending to pursue this area should consult with an advisor before starting.
