This sheet is designed to serve you as a general guide. Keep in mind that not all courses will count within the given area, and not all prefixes are listed; even if the prefix is listed, you must consult with an Interdisciplinary Studies advisor to confirm that the specific course does count. Interdisciplinary Studies is a university-wide program that generates access to many courses, assuming all prerequisites are completed. However, departments may put a priority on registering their own majors and limit registration for non-majors.

**PLEASE CHECK ALL COURSE PREREQUISITES**

### Arts (BA)

Many Art area courses require prerequisites or permission to enroll. Some require auditions or portfolio reviews. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students who wish to complete this area should consult with an Interdisciplinary Studies advisor before embarking on it. We recommend completing a minor in the Art area.
